PROFESSIONAL SUMMARY

Enthusiastic fresher pursuing BCA with a strong foundation in web development and UI/UX design. Skilled in HTML, CSS, JavaScript, Python, and Firebase, with hands-on experience building and deploying live web applications. Passionate about clean code and creating user-friendly digital experiences.

EDUCATION

Bachelor of Computer Applications (BCA)

DSU Bangalore University, Bengaluru

Jan 2025 – Jan 2028 (Expected)

Higher Secondary Certificate (HSC)

KSR School, Madhanur

Jan 2025

EXPERIENCE

Fresher – Self-Directed Learning & Project Development

Independent | Bengaluru, India

2025 – Present

- Actively building academic and personal projects to sharpen UI/UX and frontend development skills.
- Practising responsive web design, user research, and modern JavaScript workflows.
- Learning real-world development pipelines including version control with Git and GitHub.

PROJECTS

ExamPro DSU – Online Examination Platform

HTML · CSS · JavaScript · Firebase · Cloudinary

dsu.loganathanm.in

- Built an advanced online examination platform for managing and conducting digital exams efficiently.
- Integrated Firebase for real-time data handling and Cloudinary for media management.
- Features include exam scheduling, auto-grading, and student performance dashboards.

Learning Platform – Interactive E-Learning

HTML · CSS · JavaScript · Firebase · Cloudinary

learn.loganathanm.in

- Developed an interactive e-learning platform offering structured courses and user-friendly content delivery.
- Implemented course management, progress tracking, and dynamic content features using Firebase.
- Focused on clean UI/UX design to enhance the online learning experience.

Language Learning App – Smart Vocabulary Tool

HTML · CSS · JavaScript · Firebase · Cloudinary

ling.loganathanm.in

- Designed a smart language learning application to improve vocabulary and communication skills.
- Implemented dynamic content features and gamified learning paths for better engagement.
- Used Firebase for real-time user data and Cloudinary for audio/media content delivery.
